

In recent days we have seen in the CDC guidelines relating to COVID-19 be removed in some way in various areas. We want to say that our mission here at Senture has always been to be a place that puts our employees first. It is for that reason that at this time we feel the best way for us to keep this commitment to our people is to continue to adhere to CDC guidelines requiring masks and social distancing while in Senture facilities. Again, we make this decision to ensure the safety and security of all of our agents.

Along with this decision to continue to follow CDC guidelines, we will also continue to allow and offer work from home opportunities for our contracts at Senture that are work from home compatible.

We will continue to monitor the situation and listen closely to the advice of the CDC to continue to make the most informed decisions that protect both our employees and their families and make updates and changes as they are needed.

Thank you,  
Senture leadership
